

Problems of Practice

Sample Problems of Practice:

1. High Expectations
2. Student Engagement
3. Having a Variety of Teaching Strategies
4. Encouraging and Scaffolding Student Thinking
5. Increasing Rigor
6. Analyzing and Using Data

Questions to consider when deciding on a Problem of Practice:

- What does your data tell you?
- What will have the most positive effect on student work?
- Can we **control** the identified problem?
- Can we **observe** the identified problem?

Think about your own classroom...

1. What is a problem that affects your classroom and affects your student's learning?
2. What could you, as a classroom teacher, do to make this problem better?
3. How could you show student growth in this area?

CHALLENGE!

Find a way to improve your Problem of Practice and show growth in this area before your April Beginning Teacher meeting!
